Let me get with LeRoy this morning and see what capacity we have left on the Lonestar PO. If all is well there I wouldn't see why we can't ship as soon as we get approval. I guess I should ask do you want this under EPA or TCEQ?

Beth:

When can we get this approved through Lonestar and get it shipped? We have a sample for FT1001 but need to get additional samples for PT2 and PT3.

Thanks

No the final report showed the TCLP analysis below regulatory levels. There was confusion with preliminary data.

Gary,

Hexachlorobutadiene on FT1001 is fixed so we are good. I have submitted the data to Lonestar as a non-hazardous waste.

Diane-Thanks for your time much appreciated!
